# NATIONAL SAFETY AWARDS PROGRAM FOR TRUCKING COMPANIES

**Great West Casualty Company** is proud to work with the industry that moves our nation's economy. To show our appreciation of your commitment to the highest standards of excellence, we invite you to participate in the Great West Casualty Company National Safety Awards program. We've made it easy to participate:

## ELIGIBILITY

- Any trucking company that operates five (5) or more trucks (as defined by your policy) is eligible to participate in the program. You must maintain primary liability coverage for a minimum of nine (9) months.
- We've made it easy for you to receive an award – simply record the number of all preventable\* crashes and miles driven each month. At the end of the year, fill out the crash

frequency chart on the next page; and fax or email it to your regional safety office.

- To receive your award, you must maintain all relevant records and submit a written request and supporting documentation to certify that all criteria have been met. Your request may be cross-referenced with Great West Casualty Company's insured files. Insureds may be contacted to discuss questionable cases.

## AWARD CATEGORIES

Awards will be presented to carriers based on preventable crash frequency per million miles. There are two award categories: TL (truckload) and LTL (less than truckload). To qualify as an LTL carrier, at least one half of the equipment must be dedicated to LTL operations.

## AWARD LEVELS

Qualifying companies will receive one of the following awards:

- Platinum
- Gold
- Silver
- Participatory

Crash frequency is determined by multiplying the total number of all preventable crashes by 1,000,000 and then dividing by the total number of miles driven during the calendar year. See the example below.

$$\text{Frequency Rate} = \frac{\text{NUMBER OF PREVENTABLE CRASHES X 1,000,000}}{\text{TOTAL NUMBER OF MILES DRIVEN}}$$

If you have any questions, contact your Great West Casualty Company Safety Representative or the Regional Safety Services office for more information.

*\*Designating a crash as "preventable" does not constitute an admission of any liability with regard to any claim presented which arises from the incident.*
